**EnviroStraw™**  
CALCIUM PLUS

An innovative solution for the revegetation industry providing this important mineral for establishing plants.

Especially designed to provide an industry-leading revegetation solution, Calcium Plus is a finely ground, high-purity limestone with an added water-soluble calcium source that provides immediately available calcium for establishing vegetation.

The included flocculant ensures this soluble form of calcium penetrates the substrate it's applied to, and Calcium Plus is low in dust, easy to spread and breaks down rapidly in moisture.

Calcium Plus was created by experts with the revegetation industry in mind, and can be applied via hydromulching equipment for ease of application and accuracy of placement.

Sold in 25 kg bags, 40 bags per pallet.

**AUSTRALIAN  
MANUFACTURED**

**ENVIRONMENTALLY  
RESPONSIBLE**

**MAXIMUM WATER  
USE EFFICIENCY**

## Why you need Calcium Plus

- ✓ Much finer than standard aglime
- ✓ Enables accurate placement of product with minimal loss
- ✓ Effective for spot treatment
- ✓ Great source of calcium – essential for plant growth
- ✓ Easily dispersed in water and includes a soil flocculant to assist with soil penetration of the soluble calcium source.

# CALCIUM PLUS

## APPLICATION GUIDELINES

1. Designed to work with hydromulching equipment – allowing for more flexibility in application.
2. Spray from 2 directions ensuring 100% ground coverage is achieved.
3. A minimum 1 litre to be applied per m<sup>2</sup>.
4. Mix for a minimum 15 minutes prior to application.
5. Wash out application machinery thoroughly after application.

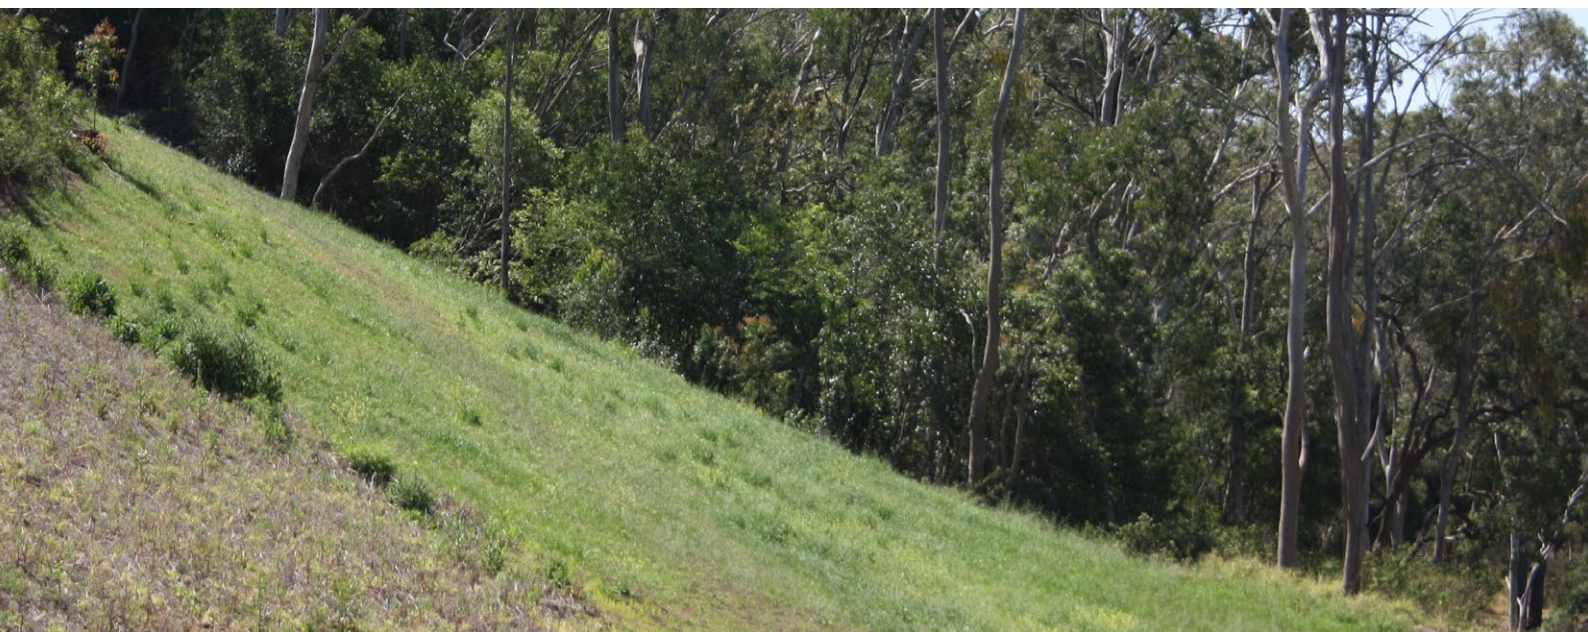

Provides three sources of calcium – immediate from a water-soluble source, medium-term and long-term from milled lime.

## APPLICATION CONSIDERATIONS

### APPLICATION RATE IN LITERS PER HECTARE

Determined via soil test data.

\* Rate can be varied via soil test data. Can be mixed with seed and fertiliser at low rates refer to the manufacturer for more information.

For more information, please contact our sales department.
